

CONNOR MAKES HIS STATEMENT

Declares That He Will Be Candidate For Lieutenant-Governor On Davidson Ticket.

THINKS HARMONY SHOULD PREVAIL

Republican State Chairman Says That Davidson Deserves Renomination--Decided Blow To Lenroot.

(Special A. D. Dispatch.)
Marshfield, Wis., May 24.—W. D. Connor, chairman of the republican state central committee, has broken his silence regarding the political status of the republican state fight. He has issued a formal statement in which he announces his candidacy for Lieutenant Governor and endorses Governor James Davidson for renomination.

Is a Surprise
This announcement is a surprise to the followers of state politics. While it was thought possible that Connor might make a combination with Davidson it was generally conceded that the Marshfield leader would not run for second place on the ticket. Coming as the announcement does, on top of the La Follette telegram endorsing Lenroot, it is a severe blow to the chances of that aspirant.

Pleads for Harmony
In his statement of his position Mr. Connor pleads for harmony in the republican party. He states his position clearly and in good form and expresses a sincere desire that Davidson be renominated, asking all the men who have worked with him in the past for their support in his and Davidson's candidacy. In speaking of Davidson he says:

Davidson Deserves Nomination
"The Hon. James O. Davidson succeeded to the office of governor less than six months ago. Mr. Davidson was one of the first to take up the new questions in Wisconsin, and during all the years never have I heard any man question his loyalty and faithfulness to those principles. During his service as a public official there have been bitter personal feelings aroused, when men on the slightest provocation sometimes accused others of wrong-doing, yet no man has ever made such a charge against Mr. Davidson. During the short time he has been in the governor's chair

his acts have been above honest criticism. Placed in a very trying position Mr. Davidson has given every effort to perform his duty and carry on the great work left to him to perform.

Should Endorse Him
"I do not believe the people of Wisconsin will be satisfied to refuse him an endorsement and expression of confidence in order to gratify the ambition of those who are anxious for the place. I appreciate the kindly intention of many friends throughout the state who offered me their support and urged me to become a candidate and I have not been unmindful of the many expressions from large number of counties where petitions have been circulated among those who worked with me in the last campaign, expressing their approval of my past service to the party and urging me to become a candidate for governor. Yet I believe when these loyal friends view the situation from different standpoints they will approve of the course I am taking.

Candidate for Lieutenant Governor
"When I reached the conclusion not to endanger the party by entering the field for governor many of my friends urged me to become a candidate for lieutenant governor. In view of the fact that I am personally interested in questions that will be important issues in the campaign, such as the regulation and control of insurance companies and other corporations and the development of the railway rate law after the experience resulting from practical trial, I have, therefore, concluded to become a candidate for lieutenant governor, and in doing so I will ask the approval and assistance of those who worked with me during the last campaign and the support of the people who believe in simple justice and fair dealing in politics as well as anything else."

The Virginia and North Carolina individual championship will be contested tomorrow.

PRIVATE CARS ON ELECTRIC RAILWAYS

Central Association of Operating Officials Holding Convention in Dayton, Ohio.
(SPECIAL TO THE GAZETTE.)
Dayton, O., May 24.—The Central Electric Railway association, which is composed of the operating officials of nearly all the electric roads of Michigan, Indiana and Ohio, held an interesting meeting today at the Algonquin Hotel in this city. Evidence of the wonderful development and extension of the electric railway systems of the middle states is afforded by the fact that many of the officials present at the meeting came from Lima, Cleveland, Fort Wayne, Toledo, Indianapolis and other points in their private cars over the electric lines. The best methods for stimulating summer travel, the railway Y. M. C. A. insurance and numerous other subjects of interest to the railway men were discussed at the meeting.

THE LADIES' KENNEL CLUB HAS ITS SHOW

Fourth Annual Exhibition of Dogs at Mineola Fair Grounds, Long Island.
(SPECIAL TO THE GAZETTE.)
New York, May 24.—The fair grounds at Mineola, Long Island, resounded today with the yelps and barks of hundreds of dogs of high degree. The occasion was the opening of the fourth annual bench show of the Ladies' Kennel Club of America, whose yearly exhibitions have taken high rank in the world of dog fanciers. The entries this year are numerous and fully up to the high standard of breeding set by the previous shows of the club. Judging was begun today under the direction of Geo. Raper, the well-known English judge, and will continue until the show closes tomorrow evening.

AN OPEN AIR AUTO SHOW IN NEW YORK

Horse Track Smells of Gasoline For the First Time in All Its History.
(SPECIAL TO THE GAZETTE.)
New York, May 24.—The whizz of automobiles was heard today on the Empire City track, where in days gone by, the equine thoroughbred reigned supreme. The first open air automobile show and carnival to be held in the metropolitan district opened at the track today under the auspices of the New York Automobile Trade association. The affair is to last three days, during which there will be a series of novel contests to determine the relative strength, speed and other good and bad qualities of the various types of motor cars.

A FAR-KNOWN CROOK IS IN TOILS AGAIN

"International" Safe-breaker Caught in London After Escaping From Devil's Island.
(SPECIAL TO THE GAZETTE.)
New York, May 24.—Police headquarters in this city has received notification from Scotland Yard that Edward Guerier, one of the best-known and most dangerous of the so-called international crooks who have conducted their operations on both sides of the Atlantic, is in the toils again. Guerier, who is about fifty years old, has a remarkable history. In 1888 he was arrested in London on a charge of robbing a bank at Lyons, extradited to France, and sent to 10 years' penal servitude. About a year after his release from prison he was again arrested in connection with a daring safe robbery at the American Express Bank in Paris and sentenced to penal servitude for life. Being transported to the French penal settlement at Devil's Island. About a year ago he and other convicts succeeded in getting away from the island on some kind of a raft. They landed in Dutch Guiana, after a long and hazardous voyage, in the course of which they were attacked by sharks. Whilst Guerier had to keep his companions in order by the air of a loaded revolver. On landing he struck out on his own account, and, after many thrilling adventures, he ultimately reached civilization again. A short time ago it became known to the police that he was probably in London. He was recognized and arrested by the same London police officer who had taken him up in 1888.

ODD FACTS ABOUT POSTAL STATISTICS

More Illiterate Countries Write As Many Missives As Do the Well Educated.
(SPECIAL TO THE GAZETTE.)
Washington, D. C., May 24.—Consul McNally writes from Liege that the publication of the world's postal statistics, by the Universal Postal Union, at Berne, develops some interesting facts from which he deduces that from the amount or nature of a country's correspondence one cannot estimate its commercial activity or development along other lines. Following is the arrangement in the order of their importance of the number of letters and postal cards passing through the postoffice for 1905 of countries having over 20 per head: Great Britain, 78.3; per head of population; United States, 67.6; New Zealand, 65.3; Switzerland, 59.7; Germany, 55.9; Denmark, 41.6; Austria, 38.2; Argentina, 37.2; Luxembourg, 34.6; Holland, 29.4; Sweden, 26.4; France, 26.2; Norway, 20.5. It is evident that the development of instruction cannot be seen from the greatest correspondence, for countries having compulsory education, such as France, Denmark and Norway, hold a mediocre place, while other countries noted for the percentage of illiteracy are well in the front. It is singular to note that the citizens of Austria and Denmark write more letters than do those of France. Belgium ranks eleventh in the list. A commercial status or other development does not figure, or both France and Belgium would hold a better position. It is seen that those of Anglo-Saxon blood correspond more frequently than do those of the Latin race. Great Britain derives the greatest profits from her postal system, netting annually about \$23,438,627, the second country being Russia with \$20,595,595. profits. Russia is not considered a letter-writing country, and its printed matter is restrained, and yet upon its peculiar system it derives good profits. The Russian postoffice department employs 65,457 persons, while Germany employs 362,517. Japan employs 61,420, or almost as many as Russia, but its profits are comparatively small.

PRESBYTERIAN CHURCHES UNITED AFTER YEARS OF DISTINCT SEPARATION

The Cumberland And Regular Presbyterians Are Again One United Church Body.

(BY ASSOCIATED PRESS.)
Des Moines, Ia., May 24.—The union of the Cumberland and Presbyterian churches has been effected. At the convention this morning the special committee on church co-operation and union submitted a plan for reunion and union with the Cumberland Presbyterian church, and closed its report as follows:
"The committee places on record its gratification over the increasing acknowledgment in all churches, and especially in the churches of the Presbyterian family, of the spiritual unity of the universal church of Jesus Christ and the obligations of Christian brotherhood. The historic position of our own church from its establishment has been clear as to church unity. We have always maintained that the visible church, which also is catholic or universal under the gospel (not confined to any one nation, as before under the law) consists of all those throughout the world that profess the true religion, together with their children; and is the kingdom of the Lord Jesus Christ, the house and family of God. Expressing the hope that there may be increasing acknowledgment by all Christians of the true nature of the church universal and action in accordance therewith, your committee respectfully asks to be continued, with a view to rendering further service to the great head of the church, in the realization of his desire for his people 'that they all may be one.'"
When Moderator Corbett announced the passage of the resolution that united the two bodies there was great rejoicing. The big assemblage rose to its feet cheering, waving handkerchiefs and clapping hands. Only two commissioners, Dr. William Laurie of Beloit, Pa., and Rev. Roger F. Cressey of Jacksonville, Ill., voted against the resolution.
Union Announced
Decatur, Ill., May 24.—The Cumberland general assembly adjourned sine die today. The last business transacted was the formal announcement of the union with the Presbyterian church.

DAVIDSON STANDS WELL TO THE FRONT IN CONTEST

Report From Madison That The Present Governor Stands Best Chance For Nomination.

(SPECIAL TO THE GAZETTE.)
Madison, Wis., May 24.—That Governor James O. Davidson is the biggest entry in the Wisconsin gubernatorial race today is generally conceded by politicians at the capital city. If a vote were taken within the next month, it is agreed, he would sweep the boards easily. The interest in the situation centers in the "growing possibilities" of Senator La Follette's choice, Irving L. Lenroot, of Superior, speaker of the assembly. When the horses of the La Follette organization declare that from now on until the primary election in September, Speaker Lenroot will be constantly in the public eye and will gain strength. The plan is to have the speaker write public letters on political questions, make many speeches and generally demonstrate that he is a man of large ability and altogether a greater personage than the meek and mild occupant of the executive chair, Governor Davidson. The elements of strength favoring Governor Davidson are the good administration following his election, the fact that the conservative vote will go to him with substantial unanimity and the combination he has made with W. D. Connor, chairman of the republican state central committee. Governor Davidson's personal and Norwegian following is entirely within the ranks of the La Follette vote. The organization of Chairman Connor is also within the La Follette vote that has carried the state three times. Adding to this the conservative vote makes the present governor indeed formidable. In this connection there is an interesting political rumor to the effect that the conservative people are going for Davidson in the republican primaries. The "Houser insurance decision bribe matter" in status quo. Houser declares he wants to be tried. Houser says he will swear to a criminal complaint. District Attorney Gilbert is going to examine the matter, and there the matter rests.

CEMENT WORKERS OUT ON A STRIKE

Work on Building Foundation of New Church Edifice Stopped This Morning.

Half a dozen concrete and cement workers in the employ of B. P. Crossman, who is building the foundation of the new United Brethren church on Prospect avenue, went out on a strike this morning and work consequently came to a standstill. The cause of the difference between employer and men was wages. Unless the matter is amicably settled almost immediately Mr. Crossman will be a loser, for the contract which he has compelled him to complete the foundation by June 1 or forfeit a specified amount of money for each day after that. The foundation is about one-third laid.

HOMEOPATHICS AT
STATE CONVENTION

Drs. Q. O. Sutherland and A. L. Burdick of Janesville in Attendance.

Dr. Q. O. Sutherland of this city opened the afternoon discussion of "Clinic Medicine" at the forty-second annual convention of the Homeopathic Medical Society of Wisconsin at the Republican house, Milwaukee, yesterday. Dr. A. L. Burdick of Janesville is also attending the session. Dr. W. B. Webb of Beaver Dam, in a notable contribution to the discussion of electro-therapeutics, predicted that static electricity would eventually become one of the controlling powers in the treatment of pulmonary tuberculosis, indicating that artificial climates similar to those of Colorado and California will be created by its use in increasing the quantity of ozone in the atmosphere.

UNION OF FARMERS
IS THE LATEST PLAN

State Organization Would Control Prices and Products of Farmers.

The American Society of Equity, an organization composed of farmers in Rock county and the entire state, are in session in Baraboo. Over 100 delegates from all over the state are in attendance. The object of the meeting is to control the supply of all products till the markets are ready for it and in this way bring to the producers all the benefits that are derived by others from storing vegetables, fruits, eggs and the like at a time of plenty and low prices for a time of scarcity and high prices. It is distinctly stated that the new organization is not to be a trust, but it is proposed to eliminate the individual as a marketer through the association, whereby they may reach the consumer ultimately through the same channel as now.

One of the results of the new system of marketing will be the greater uniformity of prices and an increased consumption of all products comprised in the class over which this proposed association will have control. For instance, the producers themselves or their association will control the supply until the demand is ready for it. Then there will be no 10-cent eggs in the summer and 50-cent in the winter. But only enough eggs will be marketed during the harvest season to supply the demand at a fair price. The balance will go into storage for the producers' account, or in storehouses owned by the producers, and will come on the market in the winter at about 25 cents a dozen. The uniform and moderate prices will induce much larger consumption.

HOW ONE SCHOOL
FOLLOWS THE LAW

ORFORDVILLE SCHOOL RAISING
SMALL CROPS THIS YEAR.

THE WORK AS PRESCRIBED

Little Views of the Youthful Agriculturists at Their Work in School.

According to the state law recently passed requiring agriculture to be taught in the common schools, the eighth grade of the Orfordville school took up the work about the middle of the winter term. During the cold months soil and drainage was studied and later plants, their cultivation, diseases, etc., and finally farm animals were taken up. When spring came it

THE GARDEN PLOT

was decided to have a school garden. It was laid out in the northwest corner of the school yard in four plots, each eight feet square and to be tended by two persons. About the first of April the scholars excavated a pit for a hotbed, 7 by 3 by 2 feet,

THE "AGRICULTURISTS"

and framed it, and leaves from the woods mixed with fresh horse-manure was put in, filling to within six inches of the top. Three inches of black dirt were put on and then two of rich woods dirt. After the temperature had gone down to 85 degrees, tomatoes, cabbage, onions, peanuts and cotton were sown and the bed covered with glass. On April 11 the plots

HARD AT WORK

were manured and spaded and lettuce, radishes and onions planted. Later peas were put in and last week the plants were transplanted. The teachers have offered agriculture text-books to the two having the best garden, and so considerable rivalry has arisen. Views of the class and garden have been taken from time to time and on May 18 there were displayed in the postoffice some of the radishes and

"THE HOE BRIGADE"

lettuce. Although the entire work has been done during intermission and after school the time has been enjoyably spent and all know they have gained much practical benefit from it. The hot-bed would be in much better condition had not some persisted in having the cabbages grow wrong end up, but nevertheless all are cordially invited to visit both the school and the garden before the term closes.

PILES

Quickly Cured in the Privacy of Your Own Home Without Risk or Danger.

Anyone can Easily Test it and Prove it, for a Free Sample is Sent by Mail to All.

Seven out of ten readers of this paper are tortured with piles or some form of rectal disease. You are, or you would not be reading this article. Thirty years ago doctors carried a lancet in their vest pocket and bled people for all sorts of diseases and bled them hard—sometimes a quart at a time. It was the fashion then. All that is changed nowadays and a doctor with a lancet would be considered a curiosity.

Five years ago doctors "cut out" piles wherever they felt the chance. All that has been changed since the marvelous soothing, healing and curative properties of Pyramid Pile Cure have become known.

By every mail we get letters like this: "I want to tell you that it was the first thing that eased the terrible pain and itching and allowed me to have a night's rest for 7 long weeks. My husband immediately went to our druggist, Mr. Heinbach, and procured a 50-cent box. I am now cured and will always recommend you highly to every one. You actually saved my life. My mind, too, was almost gone from the pain. Yours gratefully, Mrs. Rosa H. Stouffer, 1603 16th St., Moline, Ill."

"If you want positive proof of this send to the Pyramid Drug Company, 5822 Pyramid Building, Marshall, Mich. You will receive a free trial package by return mail. Try it, then go straight to your druggist, get a 50c box and get well."

NO 1906 TOBACCO IS
ACTUALLY SOLD YET

Contracts Are Thought to Be All Verbal and Each Has a String Attached.

"As regards the 1906 crop of tobacco," said a local buyer yesterday afternoon, "nothing can be predicted. The plants are coming along nicely and there is every prospect of a large acreage in Southern Wisconsin but of course all depends now on the weather. If it continues favorable for a time many fields will be put in but should the plants not develop well the ground will be utilized for some other crop than leaf. Then when the plants are set there must be more good weather and an absence of hail storms. If the crop looks good along in August there is little doubt but that many contracts will be drawn up for there is still a shortage of leaf on the markets and the demand promises to be sharp for several years. It is of course not buying green tobacco is of course not good, either for the warehouse man or the farmer, but the conditions may seem to many to warrant the risk. The grower believes that the price will not go higher and so thinks himself better off for closing his contracts early and the buyer may wish to get all possible, feeling that the price will not fall. It is not probable that the report regarding contracts already signed is true. This is the outgrowth of a little unusual pre-planting talk. Buyers for the American company and individuals, have said they would take certain crops at specified prices if they were as good as the 1905 production. These contracts are hence verbal and each has a string attached." Quiet reigns on the market. There is scarcely any old tobacco available and the 1905 leaf will not be ready for selling until September. The only sale of recent date is that of some sixty odd cases of filler by Samuel Grundy.

SPRING BROOK

Mrs. Baumgartner, bookkeeper for the Holendahl, Jr., factory, has been in Cassville, Wis., having been called there by the death of a relative.

Mrs. Peterson, who has been confined to her home on McKee boulevard, is reported to be much improved.

Mrs. Gustav Kaehn has been spending a few days with her son, Herman, near Afton.

Mrs. Vandewater and children are the guests of Mr. Barney O'Brien on Eastern Avenue.

Miss Maggie Tilton is quite ill at her home.

Mrs. Clarence Phillips has returned from Mason City, Iowa, where she spent the last three weeks.

A. V. Lyle, the operator at the Rock River Tower, is on the sick list.

G. Peters, formerly in the employ of the Janesville Street Railway, is now working in the Houghs' Shade Company.

The Honch Shade Corporation is now working until 9:30 in the evening to fill the great number of orders which this company has been unable to work fast enough to fill. If in this extra time they do not catch up with their orders which they now have on hand, they will try to work two shifts of twelve hours each.

In spite of the fact that the city got quite a heavy fall of rain yesterday there was not enough in Spring Brook to wet the ground. The boy who did not go home from high school to water the tobacco-plant bed because of the rain he had seen uptown was disappointed on returning to his home later than usual.

The drinking fountain at the corner of Jackson Street and Eastern Avenue is badly in want of repair. There is hardly ever enough water in the tank to satisfy the want of a team of horses and the condition of the ground around it is very bad owing to the leaky condition of the same.

GYMNASIUM CLASSES
IN BIG EXHIBITION

Interesting Program Given by Seventy-five Men and Boys at Y. M. C. A. Last Evening.

Two gymnastic events in one took place in the auditorium of the Y. M. C. A. before three hundred people last evening. The annual exhibition of the gymnasium classes was given and the last of three Tri-City Inter-urban Athletic conferences was held. The program for the former was superior to anything arranged in past years and the competition in the latter, though freer, failed to send a team, was close and interesting. Janesville won from Rockford, but her margin of points was not sufficient to overcome the lead which the Forest City boys attained in the two former contests. Janesville last evening made a total of 570 6-10 points, securing 187 in the twelve-pound shot put and 383 6-10 points in the parallel bar competition. Rockford scored 474 5-10 points, getting 169 in the shot put and 305 5-10 on the bars. The records for the two past meets, however, gave Rockford 881 points and Janesville 768. Thus The Forest City is winner of the shield offered for the highest score in the three meets, having 1355 5-10 against the 1228 6-10 of the Power City. The Janesville contestants on the bars were Frank Chase, Rollo Dobson and Alfred Griswold and in the shot put, Harvey Lee, Len Matthews and Doane Wright. The distance of the best throw, made by Lee, was 37 feet 6 1/2 inches. In the exhibition two classes of the Junior department, another of the Intermediate and a number of the Seniors gave drills and exercises on various pieces of apparatus. E. Ray Lloyd gave a bag punching exhibition. Some stunts were done by Alfred Griswold and G. Most; Will McDonald did a number of con-

tortion feats and Gordon Milliken and George Yahn performed on the horizontal bars. Miss Frances Lewis at the piano furnished music for the occasion. For the success of the affair much credit is due Physical Director J. A. Ward, for on him fell the work of preparing the program, drilling the participants and conducting the exhibition.

OBSERVANCE HERE
OF MEMORIAL DAY

Rev. J. W. Laughlin Will Deliver the Address at Exercises Next Wednesday.

Rev. J. W. Laughlin, pastor of the Presbyterian church, will deliver the address at the Memorial Day exercises at the courthouse next Wednesday afternoon. Music will be provided by Miss Winbiger and pupils of the High school and Mrs. Janet B. Day will give a reading. The program will close with the singing of America, led by Col. E. O. Kimberley. In the morning the W. H. Sargent Post No. 26, G. A. R., firing squad will march to the cemeteries, where the customary salute will be fired and flowers and new flags placed upon the graves of departed comrades. The parade of the day will move from the G. A. R. hall at 1:15 o'clock. The route of the march will be on Milwaukee street to the Grand hotel, counter-march on Milwaukee to Main; on Main to the courthouse. The parade will be headed by the Fire Police and the Imperial band, the fire and police departments, and citizens in carriages may participate. C. K. Millmore will be marshal of the day and J. P. Carle, master of ceremonies.

Indian Ford Transportation Company Rushing Work on Their Road at Indian Ford.

"General Manager" F. P. Pierson of the Indian Ford Transportation Company stated this morning that work on the construction of the proposed road at Indian Ford is being pushed as fast as possible. "The Windlass" road promises to be a popular one this summer and "President" McKee and others who have investigated the depth of the river claim that but little trouble will be experienced during low water in reaching the terminus of their road. Later it is hoped that some of the troublesome sand-bars in the lower river will be removed, making it more convenient to travel for launches.

It is understood that Mayor Hutchinson, at the meeting of the common council next Monday, will announce his veto of the ordinance abolishing the office of sidewalk inspector and entrusting his work to the street commissioner, which the council passed by a vote of 8 to 1 at the last session. It is also understood that some of the aldermen have changed their attitudes regarding the matter and that the necessary two-thirds vote for passing the measure over the mayor's veto is not likely to materialize. Such being the situation, it seems unlikely that Thomas McKune will be deprived of his office.

American Ambassador There. London, May 24.—An Elizabethan fair and fete in the great hall and grounds of Lincoln's Inn was formally opened under the patronage of the Duchess of Connaught. Today the Lord Mayor presided at the opening ceremonies and tomorrow Mr. Whitehead, the American Ambassador, will preside at a similar function. The fair is in aid of the King's college hospital removal fund.

"Just as Good"
Paint

You never hear of a paint better than Pure White Lead and Pure Linseed Oil. "Just as good" is what they say. Pure White Lead and Pure Linseed Oil are acknowledged to be the standard by which all paints are measured. The skillful painter invariably prefers to use it, and mix it himself. He knows that his business reputation is best built by the use of that paint which will give you the most satisfactory results. He knows Pure White Lead wears evenly, and when ground in Pure Linseed Oil has greater elasticity and adhesive force than any other paint known. He knows, too, that the best results are obtained only when the paint is mixed with special reference to the surface to be painted. To make sure of the best White Lead ship your painter to use

Deluge of Souvenir Post Cards Sent by Friends in Stricken Cities.

A number of splendid postals of San Francisco have been received in this city, and as much as they are appreciated now, their value as souvenirs will be more than doubly increased as time passes on and the most shocking tragedy of modern times becomes but a memory, and the old familiar scenes are no more. The most impressive of the pictures perhaps, shows the entire downtown business district with the fire approaching away in the distance. The black pall of smoke can be clearly seen hovering like a dread omen over the horizon, and inasmuch as that entire section of the city was later destroyed by the fire, this special picture will be a priceless one in the future years to those who loved the old San Francisco. Another striking postal shows the stricken residents lined up for blocks awaiting the provisions, which the officials are handing out to them. Rich and poor alike can be picked out in the procession, and the expression on the various faces form a most interesting and in some instances, pitiful story, to those given to looking into characters. Another of the postals which mutely tells its sad story of the dreadful loss is a picture of Golden Gate park, peopled as it is with 200,000 of the refugees who have lost everything they ever possessed in either the earthquake or the succeeding fire. The pictures of Ireland, Stanford university at Palo Alto, which have reached the city on postal cards are likewise impressive in the extreme. Janesville people who have seen the university and have received pictures of it as it suffered in the tragedy, are gripped upon beholding the awful havoc which the revolting elements have wrought on one of the fairest structures in all that land of things of beauty. The interior scenes are the most appalling and picture plainly the deplorable fate of the almost priceless mosaics which were the pride of all connected with the university, and which have been ruined practically beyond power of repair.

IMPORTANT CIGAR NEWS

The National Cigar Stands Co. is a new company that was established 5 months ago. It makes a specialty of high-grade cigars of every description. The cigars are only sold in drugstores. It has always been a well-known fact that the finest cigars are to be had in drugstores. This company is not a trust. It is a private company making its own brands of cigars and selling them to authorized agents only. Step in and see our beautiful new case and have a Black & White "on the house," a seed and Havana cigar for 5c that is worth 10c. We also carry all the popular home-made brands, such as the Exceptional, Dum Dum, Reliance, Advance, Red Cross, Twilight, Grand Duke, Garzard, Star of America, Etc. Try buying your cigars of us for awhile and see if we don't furnish them in just the right condition to please you—Smith's Pharmacy.

News for the Railroad Men.

The Air Brake Instruction Car of the North-Western road is in the city and a class of firemen is hearing the course of lectures.

John Kelly, yardmaster of the St. Paul company, was at Albany today, being relieved by Switchman Nolan.

When the Chicago-Madison passenger over the St. Paul line arrived here at 10:30 this morning there was a hot box on one of the large drive-wheels of the locomotive and Engineer Paisy Whalen with engine number 755 took the run out from here, while number 902 was sent to the roundhouse to be cooled off and repaired.

John Tachens is relieving R. B. Hapner at the St. Paul freight depot.

Harry Loudon, night caller on the St. Paul, made a business trip to Brookfield this morning.

Frank Griffin, day switch-tender at the Five Points, is gaining and expects to resume his work shortly.

All signs indicate that the Chicago and North-Western will show a new record for earnings when the next annual report is issued. An increase of \$6,489,272 already has been achieved in the gross earnings for ten months of the fiscal year, and should this rate be maintained for the remaining two months the increase will be close of \$8,000,000. The road is hard pressed to handle all of the traffic coming its way, and there is no prospect of any diminution for the remainder of the year. The increase in gross earnings for April was \$778,224, which is considerably above the average of the ten months.

The Wisconsin railroad commission has heeded the petition of hundreds of residents of the state to place too strict an interpretation on the anti-pass law, the plan being that a strict enforcement of the statute interferes with the development of the state. The commission has decided that land agents may accept passes under certain restrictions.

The Milwaukee road has protested against an investigation of its books by the railroad commission in regard to discriminations and rebates subsequent to the commission law of June 16, 1905. Commissioner Thomas asked for these books for 1905 and received a denial for them for all that part of the year after the passage of the commission law. The question has been referred to the attorney general for an opinion.

PICTURE CONTEST IS
OFFICIALLY CLOSED

Many "Handed" in "Excellent Pictures" in Good Roads Competition Contest.

That there are plenty of people who realize the shockingly bad condition of the sidewalks in Janesville is clearly shown by the number of entries to the Good Roads contest which has just closed. It is a difficult thing to secure good pictures of sidewalks and roads it appears, but many of those handed in at the Gazette office are most excellent in illustrating the need of good, efficient work by the sidewalk inspector and street commissioner. The star walk on South Main street in front of the Young America block which has sunk down or the bad bumps on North Main street were not depicted in the pictures clearly enough to make good cuts of them. There were also several walks or lack of walks and bad roads in Spring Brook that were not clear enough for use. The bad strip of road on South Main near Buob's Brewery was also too faint, as was the lack of sidewalk on Sinclair street, for reproduction, but the fact they were handed in shows that they have been marked by the contestants. The best of the pictures will be published and the prizes awarded by number. This is done at the request of the competitors, many of whom did not desire their names used in connection with the pictures. The contest has done one good thing if it accomplishes nothing else. It shows that the cry for new streets and new sidewalks is not far-fetched.

AND NOW IT'S CHICO CIGARS

Interesting Talk by Smith Drug Co. on What Makes a Cigar Popular. The remarkable success of Wadsworth Bros. Chico cigar is getting into the mouths of smokers in Janesville is astonishing.

Less than a year ago the Chico was unknown here. Today it is the most popular cigar in Smith Drug Co.'s large stock. "Advertising alone will not make a cigar popular," said Mr. Smith. "A cigar must be good, to meet with a sale in this city. I do not know of a town where the smokers are as discriminating as they are in Janesville, and the fact that they have made Wadsworth Bros. Chico their favorite, speaks volumes for its quality. While it sells for 5c, it is better than the average ten cent, so that it reaches all classes of smokers. It is an all long Havana filler cigar, and a good one, that I am glad to recommend to my customers."

...FORTY YEARS AGO...

Jansville Daily Gazette, Thursday, May 24, 1866.—Plan for the completion of the Capitol.—The plan adopted by the building commission is that of Col. S. V. Shippman, an accomplished architect of this city (Madison). Judging by the drawings it will be graceful and appropriate. The summit of the dome proper will be one hundred and sixty feet above the ground; to the top of the tholus it will be on hundred and eighty feet. The dome will be composed exclusively of iron and glass, and when completed, Wisconsin will have a capitol as beautiful, though not as costly, as that of any State in the Union.

Another Wreck.—About 11 o'clock last night three buildings adjacent to those that fell on Court street the other day, fell from the piles upon which they rested, and were made general wreck of. Two of the buildings are occupied by black families, but no one, we understand, was injured. The structures were very old and of little value.

Runaways.—The frequency of run- ners. Admission ten cents.

always in our streets is becoming a serious matter. Scarcely a day passes but some team, breaking loose from all restraints, rushes madly through the main avenues of travel, endangering the lives and limbs not only of pedestrians but of occupants of vehicles. We do not know whether there is an ordinance requiring that no team shall be left on the street without hitching. If there is it should be rigidly enforced. If there is not the Council should make it their early business to pass such an enactment.

The Strawberry Festival.—The preparation for the Congressional festival to be held tomorrow evening, are nearly completed. In addition to the Jansville Brass Band, we understand that an effort is being made to obtain the services of the celebrated pianist, Prof. Titcomb. The vocal concert will be under the charge of Mr. Wilson. Johnny Schmoker will be rendered by the original Schmoker band. The strawberries are to be all monitors, furnished from the extensive nursery of Mr. Colby in southern Illinois.

Appetite Is Important

It Insures Perfect Digestion and Assimilation of Food—The Best Appetizer.

Eminent doctors agree that food cannot be properly digested and assimilated unless there is a sharp appetite for it. The mere eating of food is not, in itself, of benefit. The nutrition which the food contains must be well digested and assimilated if permanent good is to be gained from it. Therefore the importance of the appetite!

There is no other such safe, sure means for creating a healthy appetite as Pabst Blue Ribbon Beer taken before or with meals, and it is an almost absolute guarantee of perfect digestion.

Pabst Blue Ribbon Beer is more than an appetizer and active aid to digestion. It is a food of highest quality, always strengthening and nutritious, rich in the vitalizing, predigested food elements of Pabst eight-day malt and the tonic properties of choice selected hops.

Pabst Blue Ribbon Beer nourishes the whole body, invigorates the blood and refreshes the brain. Always pure and delicious, brewed in perfect cleanliness; perfect in age, purity and strength.

Natural Wonders.

Two contrasts of nature are the Island of Fire and the Lake of Snow. The Island of Fire is situated in the middle of a large lake of boiling mud in the Island of Java. The steam and gases which rise from its surface form themselves into bubbles attaining the diameter of five or six feet, and after sailing high up in the air like balloons, they explode with a loud report. The biggest snow lake is to be seen among the Karakorum mountains, north of India. It measures more than 300 square miles in total area.

MANY AILMENTS—ONE CURE

All of the ailments which arise from one cause can be cured by one remedy. Dr. Shoop's Night Cure will cure any disease which arises from weakness of the inside organs. Its action is to bring back the life force to the nerves and keep you young. It brings back health and strength by restoring the nerve power that makes all vital organs act. It is the only remedy that even attempts to build up and treat the inside organs. For sale and recommended by **PEOPLE'S DRUG CO. AND KING'S PHARMACY.**

In Womanly Ailments and Weaknesses

Dr. Shoop's Night Cure Soothes, Heals and Cures while the Patient Sleeps.

The best remedy which physicians know for Female Weakness is composed of herbs of a certain quality. To this are added other remedies which draw out the poisons and send them to the membranes. This soothing action is known by druggists and physicians everywhere as Dr. Shoop's Night Cure because it cures while the patient sleeps and the morning finds the patient healthy and strong. Every woman who suffers from any of the ailments mentioned above, should know that they never know a well day—yet all the while suffering and sickening. It is unnecessary to say that even attempts to build up and treat the inside organs. For sale and recommended by **PEOPLE'S DRUG CO. AND KING'S PHARMACY.**

"He who thinks he can find in himself the means of doing without others is much mistaken; but he who thinks that others cannot do without him is still more mistaken." A merchant rarely makes the first mistake—never if he is a merchant—but when he concludes to cut advertising, it is a sign that he is.

KENTUCKY ON TRIAL.

The supreme court of the United States has recently rendered a decision in the case of Caleb Powers, the man who has three times been convicted of the murder of Governor Goebel in the courts of the state of Kentucky.

So much prejudice and politics entered into these state trials that an effort was made to take the case out of the state and place it in the hands of the federal court.

The question of right of jurisdiction was submitted to the supreme court, and the decision just rendered sends the case back to the courts of Kentucky.

The supreme court recognizes the fact that the honor of the state of Kentucky is at stake and that Mr. Powers is entitled to a fair and impartial trial. Collier's Weekly, in sizing up the situation, says:

"Caleb Powers is soon to be tried for the fourth time, in the courts of his own state, for the murder of Governor Goebel. So decides the United States supreme court, and by that decision saves the state of Kentucky from a lasting and national dishonor. For had the judgment been otherwise, had the federal court assumed jurisdiction, there would have been lost to the Blue Grass Commonwealth its saving opportunity of righting a great wrong not only to one of its citizens but to itself, by finally according to a man in jeopardy of his life the fair trial guaranteed to every citizen of the United States. Three times Powers has been before the bar of justice, and each time the court of appeals has reversed his conviction. On the first and third trials—and this in a political case—the jury was drawn from the ranks of the prisoner's party opponents."

"The second trial was held before a judge who had publicly denounced Powers as guilty, at a political meeting, and whose prejudice during the court session was so obvious that the higher court censured him for not vacating the bench. The trials of the accused, comments Justice Harlan in voicing the opinion of the supreme court that there is no warrant for removing the case from the state."

"The fact is generally recognized that the luxuries and not the necessities of life are what make people poor. Many a man with a good income is on the verge of insolvency all the time because of extravagance. The money spent by tourists abroad of course goes out of the country and is therefore a drain on the public funds. While the money spent on automobiles gives employment to home industries and keeps the medium in circulation."

The man who smokes, says, in defense of the habit, that some one must pay the government debt and he is helping to discharge the obligation. So people offer some sort of an excuse for every extravagance.

The nation is traveling at rapid pace and the effort to keep up with the procession was never more vigorous than today.

LAND SPECULATION.

It is popular, in these days of easy money, to denounce the man who gambles in stocks and invests his money in mines, and to overlook another large class of speculators who make investments entirely in land.

The statement is often made that land is a tangible thing which never burns up or runs away. While this is true, it is also true that the fever of speculation in real estate is just as contagious and runs just as high as in any other class of speculation. The Wall Street Journal, in commenting on this class of investments, says:

"One has only to read the advertisements of the Sunday papers of the immense land projects in Long Island, and in other places, to obtain an idea of the great speculation which is going on in real estate. It would seem as if the idea prevailed that if people put their money into land they would be safer than if they put it into stocks and bonds. Yet this real estate speculation is as truly a speculation as any that takes place in Wall street. It is speculation on margins, too, for most of the land is bought on partial payments. People are taking their savings and putting them into lots carved out of farms, ten, twenty and even forty miles from the city. The land may or may not be worth what is paid for it, but it is an unproductive investment unless the people buying the land actually live upon it and thereby cheapen the cost of living. It seems worth while asking whether the time has not come to call a halt in this speculation."

Frank Gray, formerly of Janesville, in writing to friends from California, says: "This country is alive with real estate agents and new additions are being platted and sold at fabulous prices. Every eastern tourist seems possessed of the notion that a lot in California is as good as a gold mine and money is invested lavishly."

Plenty of people who would not look at mining stocks, go daily on land speculation, and many of them land where the West Superior investors landed years ago.

There are more lots for sale in the vicinity of Chicago than are occupied by the entire city, and this is true of every city in the land. Real estate that is worth simply what it will produce in garden truck.

This class of speculation, coupled with extravagance, is regarded by the Journal as two of the principle causes for industrial depression. In speaking of the latter, the paper says:

"On the side of extravagance, which is another cause of industrial depression, it is only necessary to call attention to the lavishness of expenditures on the part of multitudes of American families. The immense travel to Europe this year which will involve the expenditure by Americans abroad of probably more than \$200,000,000 may be put under the classification of 'luxuries.' Then take the automobile craze. The motor car is simply a luxury and a very expensive one at that. Yet there are over 75,000 automobiles in the United States and the registration in New York state up to date amounts to 23,203. Many of these automobiles are owned by people who ought not to afford such an expensive luxury. There are cases known of people who have mortgaged their houses in order to buy automobiles. It would not be far from the truth to say that the annual cost of these automobiles and their operation in New York state alone amounts to upwards of \$30,000,000. Such a sum as that, actually saved and invested would be sufficient to relieve the money market from the possibility of strain as a result of the 'movement of the crops.'"

The fact is generally recognized that the luxuries and not the necessities of life are what make people poor. Many a man with a good income is on the verge of insolvency all the time because of extravagance. The money spent by tourists abroad of course goes out of the country and is therefore a drain on the public funds. While the money spent on automobiles gives employment to home industries and keeps the medium in circulation."

The man who smokes, says, in defense of the habit, that some one must pay the government debt and he is helping to discharge the obligation. So people offer some sort of an excuse for every extravagance.

The nation is traveling at rapid pace and the effort to keep up with the procession was never more vigorous than today.

Exchange: It appears that William E. Chandler keeps a diary. Always beware of a man who does that.

Metropolitan Crazes.
Milwaukee Sentinel: The fads of great cities are interesting to note. Chicago has taken to buttermilk, while New York is wild over roller skating.

Small Wages For the Anointed.
Chicago Tribune: The idea of Over-seer Voliva living on a salary of \$100 a month must seem highly ridiculous to John Alexander. Elijah Moses Jehoshaphat Dowle.

An Institution Always Hard Up.
Sheboygan Journal: The burglar who robbed the Sheboygan public library evidently needed the money worse than the library needed it, and that is saying a good deal.

Several Degrees of Thrills.
Exchange: London has discovered that baseball is a game with "thrills in it." However, to those accustomed to cricket even cricket probably would seem thrilling.

Canal Knockers Numerous.
Chicago Tribune: That wild-west man who predicted some time ago that it would take 150 years to finish the Panama canal has nearly enough converts to his belief now to organize a political party.

What's In a Name.
Chicago News: Alexander Hamilton was arrested on a criminal charge in a north shore town. Aaron Burr, who keeps a saloon on the south side, simply shook his head and said he was not surprised.

To Impose on Country Press?
Milwaukee Journal: Milwaukee needs advertising, and it is up to the business men of the city to see that they get it. The coming State Fair offers a splendid opportunity, and now is the time to make full preparations.

Milk-Pail Over Again.
Eau Claire Leader: Just as Senator La Follette is raising a merry Cain, and attracting a nation's attention to have his lieutenants in the state get into such a mess and kick the milk pail over so suddenly.

Merely Say "Fudge".
Beloit Free Press: As the world knows that the Janesville autoists "holter," "whoa!" when they bump up against a curb stone, it is now ready to be told what the Janesville golfists say when the ball cavorts into a ditch.

Need For Self-Control Varies.
Milwaukee Journal: Mr. Host did not remember the rapid-fire "holter" that La Follette made years ago, when he accused Senator Sawyer of attempting to bribe him. The exigencies of reform demand more self-control at some times than at others.

Explained in Brief.
El Paso Herald: The Aldrich crowd tried to hold up Mr. Roosevelt and he promptly coqueted with the democrats, and as promptly Aldrich & Co. came down and off. Then the emergency being over, Mr. Roosevelt returned to his normal party affiliations.

Probably Scared Out.
Exchange: A Detroit preacher has started an innovation in say-when sermons—that is, he announces his willingness to chop off whenever the congregation thinks it has heard enough. And, curiously enough, now that the congregation has its option, it wants long ones.

The Uplift at Manitowoc.
Madison Journal: They are hungry for art and aesthetic uplift at Manitowoc. A news item says one hundred people fought to get into the opera house to see Winnegar Bros. after the house had been sold out. Schaffer, the divine healer, would probably go there and the Cherry Sisters ought to be good for a week.

Fail to "Spot" Hidden Hand.
Milwaukee News: The "reformers" are complaining that Senator La

Follette is not playing fair in siding with Lenroot against Davidson and McGillivray. Evidently have not discerned the hidden hand of the corporate enemy seeking to overthrow the people's liberties by breeding insubordination, revolt and treason in the ranks of the faithful.

Too Little Spanking Nowadays.
Superior Telegram: Here is another from Kansas. A Kansas editor says: "The old-fashioned woman said little and spanked much—the woman of the present time says much and spans little." He adds that recalling his own spankings received he leans to preferring the modern woman, but when he observes the children of today he wishes for more old-fashioned women. He is near the mark as to the need of today. But he is not the women only that spank duty.

Society Rot in Newspapers.
Memorize: Herald-Leader. "Dope" which appears under this head is often so ridiculous that it is sickening. Here is a paragraph which appeared in a Cincinnati paper in an article describing a May festival in that city last week: "Especially gorgeous, among the lesser items of costumes, was the immense white feather fan which Mrs. Nicholas Longworth carried, and which she used most gracefully. It is not every woman who can manage even a small fan with skill and nonchalance, but this Princess Alice, now queen, managed this detail with the same grace and ease which have characterized her at every turn." If Congressmen Nicholas Longworth thrashed the fellow who wrote that nobody would blame him. Such guff makes the Rooseveltists silly.

The Penalty For Too Much Beer.
Evening Wisconsin: Beer has received a blow in the house of its friends. A dispatch from Berlin states that German writers, commenting on the failure of German athletes to carry off signal honors in the Olympic games at Athens, say that the beer-drinking habit is sapping the national vigor, not only causing superfluous fat and preventing the Germans from acquiring that taniness of muscles which distinguishes the English and American athletes, but also seriously affecting the heart. The inclusion of the English athletes with the Americans as exemplars of men in good physical condition would seem to indicate that beer is detrimental not when it is used, but when it is abused; for England as well as Germany is celebrated for liberal consumption of malt liquors. It is the habit of continual guzzling that hurts. Emperor William has condemned it on several public occasions, and the probability seems strong that it will decrease.

Forest Fire Damage Over-estimated.
Marquette Eagle-Sun: All reports since the first day after the forest fires agree that the damage was far less than was supposed. Quinnessee, for instance, that was said to be entirely wiped out, only had two blocks and a half of her business section burned and that did not include some of the more expensive buildings. At Abol less than half the town was destroyed, the mill remaining intact. The loss fell most heavily on the small homesteaders who lost only a few hundred dollars in property, but still lost, in losing that, his all; at the beginning of the summer season when he might have expected to get a crop from the soil. Lumbermen who are in a position to know assert that very little standing timber was burned. The fire-bands in the cuttings and swamps; it was a fierce fire while it lasted and the towns in the upper peninsula that escaped, are to be congratulated.

NATE THORNTON WAS GIVEN A BEATING

By City Marshal for Dumping Two Barrels of Garbage on St. Mary's Avenue in Dead of Night.

It is alleged that late last evening "Nate" Thornton dumped two barrels filled with noisome garbage in the gutters of St. Mary's avenue. City Marshal Appleby was so thoroughly convinced of the truth of the allegation that he chased Mr. Thornton five miles today and when he caught him near the intersection of Milwaukee and Bluff streets this afternoon he picked him off the rig he was riding on and gave him a taste of the hickory cane before speeding him on his way after his team to remove the aforesaid barrels.

THE DEATH REPORTS OF THE PAST MONTH

Modern Woodmen of America Compute Their Death Rate for Last April.

During the month of April 350 deaths of members were reported to the head clerk of the Modern Woodmen, representing an aggregate insurance of \$616,500, which, classified by causes of death, may be summed up as follows: Zymotic or germ diseases, 16; constitutional diseases, 81; circulatory diseases, 49; genito-urinary diseases, 30; respiratory diseases, 53; digestive diseases, 31; nervous diseases, 24; unclassified, 72.

In the foregoing list there were 45 first-year deaths, 23 second-year, 13 third-year, 29 fourth-year, 21 fifth-year, 35 sixth-year, 30 seventh-year, and 33 eighth-year. One death occurred in the twenty-third year of membership, 2 in the twenty-fourth, in the twenty-fifth, 3 in the nineteenth, 3 in the eighteenth, and 6 in the seventeenth.

Tuberculosis, as usual, claims the largest number of victims—56. There were 51 accidental deaths, this being the second largest cause of mortality, and 48 deaths from pneumonia. Bright's disease claimed 24 victims, and heart trouble 35. Cancer has 16 deaths to its credit, and typhoid fever 9, while brain troubles claimed 10, with a similar number for apoplexy.

In the unclassified deaths there are 14 suicides listed. However, but two of these occur within the three-year period—one in the first, and one in the third membership year. There is one suicide in the seventeenth, one in the nineteenth, and one in the twentieth membership year. By the terms of the by-laws suicide claims are incontestable after three years' from date of joining.

LOCAL LAGONICS

Building New Home: Fred Hager is building a new home on Walker street in the second ward. The cost will be in the neighborhood of \$1,000.

Dr. Dwight Freeman of Topeka, Kas., was a Janesville visitor during the past week. Dr. Freeman was the famous "Buck" Freeman of University of Wisconsin football fame and is now in charge of the Santa Fe road's hospitals at Topeka.

Is It Strawberry or Ruby Jack? Experts in zinc this morning had a discussion whether samples just received from the Baxter property found while drilling a well at one hundred and twenty feet depth were strawberry or ruby Jack.

Burglar Scare: At one o'clock Wednesday morning Mrs. F. D. Murdock sent word to the police station that a man had come onto the porch of her home on North Franklin street and had made efforts to get into the flat above. Chief Appleby and Officer Fanning were unable to find any trace of the night prowler.

New Drinking Fountain: The new drinking fountain on the Corn Exchange has been completed and will shortly be turned on for accommodation and comfort of man, horse and dog.

No Games Saturday: Because a number of the players will be out of the city Saturday, attending the state interscholastic track meet at Madison, there will be no games in the Janesville Junior Baseball league on that day.

Northern Suit Adjudged: The case of Josse Vandebogart vs. the Marine & Menominee Paper Co. which Judge B. F. Dunwiddie went north to try on Tuesday of this week, having been called in by Judge Samuel Hastings against whom an affidavit of prejudice was filed, was adjourned to the second week in June. E. P. Vilas, attorney for the paper company, was unable to appear.

Stallion Certificates: Stallion certificates for "J. W. Howe" and "The Rex," bay trotters owned by H. D. McKinney of this city, and "George," a bay grade Clydesdale owned by Edward Behlman of Milton, have been filed with the register of deeds.

Takes Charge Tuesday: The new chief of the Golf Club pavilion expects to take charge there next Tuesday.

Money for Wm. Eagan: William Eagan, a well-known local character, has \$1,000 coming to him as his share of an estate left by the late William Eagan, who died about five years ago. Unfortunately the fortunate man cannot be located. S. D. Tallman has charge of the estate.

Waupun Is Crowded: Secretary J. C. Kline, who, with the Y. M. C. A. quartette before the prisoners at Waupun last Sunday, says that the prison is so overcrowded that 65 prisoners are obliged to sleep outside the cells.

Charged With Drunkenness: William Flickner of Grant county decided that he was found in a drunk and disorderly condition on the public highways and his hearing was set for Friday morning at 10 o'clock. Frank Komp unobscuringly admitted that he had partaken of too much "Dutch courage" and paid a fine and cost amounting to \$2.10 in municipal court this morning.

Women Heavily Fined: Jennie Fish pleaded guilty to the charge of violating the city ordinance and keeping a disorderly house at No. 60 South River street, in municipal court this morning and paid a fine of \$25 and costs amounting to \$2.60. For being an inmate of the place Grace Baumstator paid a fine and costs amounting to \$12.60.

Attention Comrades: All comrades and ex-soldiers are requested to meet at G. A. R. hall Friday morning at 8:30 sharp to attend the funeral of our late comrade, Thomas Mackin. By order of Geo. Vinoy, Commander; L. M. Nelson, Adj.

Prize Offered.

JOHN LYONS' DEATH OCCURRED WEEK AGO

Officer And Mrs. Peter Champion Discovers At Gilbert, Ill., That Body Had Been Buried Five Days.

Officer and Mrs. Peter Champion returned last evening from Gilbert, Ill., where they discovered upon their arrival there that the death of John M. Lyons, Mrs. Champion's brother, occurred on May 17. Strangely enough, none of the men with whom he had worked—some for a period of ten years—knew of the whereabouts of any of his relatives. He appears to have been of a quiet, tactful disposition and to have acquainted no one with the fact that his home was in Janesville. He was boss of a large crew of men engaged in laying the rails for an electric line from Chicago to Belvidere. The double tracks of the C. & N. W. Ry. Co., which the electric line is to parallel, were close by and his body was found lying near the rails at five o'clock last Thursday morning. Many fast trains go through that station without stopping and it is supposed that it was one of these that ran him down. When the coroner's inquest was convened an effort was made to locate relatives. Failing in this his burial was ordered by the officials, there being sufficient money in the unfortunate man's clothes to pay the expenses. Last Saturday Mrs. Champion wrote a letter to her brother. The postal authorities notified the coroner in Elgin of its receipt at the Gilbert office and he ordered it opened. Mrs. Champion had signed only her Christian name, but telephone inquiries of the police department here promptly led to a clearing up of the mystery which surrounded the man's antecedents and home. The remains will be disinterred and brought here for burial.

GRABBED A WITNESS OUT ON HUSTINGS

Attorney for Plaintiff in Civil Suit Who Didn't Want Case Adjudged Was Equal to Emergency.

Judge Reeder handed down a decision for the plaintiff in the sum of \$13.33 this morning in the action of F. H. Backus vs. William T. Coyne, with the New Dots Mfg. Co. garnished, tried on the 21st instance. S. D. Tallman was attorney for the plaintiff and T. S. Nolan appeared for the defendant. There is a little story connected with this case which shows what adversarial law sometimes do at law. The defendant was not ready to try the case and asked for postponement. The plaintiff imagined his case was ready and insisted on immediate hearing, there being some disadvantage to be gained thereby. Defendant finally acquiesced and the trial began. Plaintiff's most important witnesses had not arrived and the best of those on hand proved a disappointment. It was clear that unless the trial could be kept going on some pretext until the star witness arrived it would either have to be adjourned and the advantage lost or the whole case would be doomed. Plaintiff's lawyer managed to slip out of the court room for a moment. The first man who caught his eye on the street was Tib O'Rourke. Pounced on and dragged into court as a witness, Mr. O'Rourke surprised even the attorney who had grabbed him by evincing some knowledge of the case. The lawyer for the plaintiff proceeded to ask all manner of questions, insisting on minute detail of time, place, and circumstance, and spinning the "important testimony" out until it became so attenuated that the opposing attorney was getting not only impatient, but suspicious. After an hour had elapsed the bona-fide star witness hove to on the horizon and the plaintiff's lawyer hastened to round off his questioning and quarreling of Mr. O'Rourke and dismiss him. By Judge Reeder's decision the New Dots company is ordered to pay the money into court within ten days so that it may be turned over to the plaintiff. The defendant Coyne made the plea that though unmarried, he had to support his mother. The court did not find that the evidence supported this latter contention and decided that his wages could and ought to be garnished.

MISTAKE IN DATES OF SCHOOL DEBATE

Rusk Lyceum and Forum Debate on Friday, Not Saturday, Night This Week.

A mistake was made in the date set for the debate between the Lyceum and the Forum Debating Societies, of the High School on the Debate question. The time set should have been Friday evening, May 25th, at 7:45, instead of Saturday, the 26th. The debate will be held in the main room of the building, where there is lots of room and good ventilation. The judges picked are Rev. R. C. Denison, T. O. Howe and Jesse Earle.

DRINKING FOUNTAIN VERY BADLY NEEDED

Delay in Erection of the Court House Park Fountain Works Hardship.

Just why the Court House Park drinking fountain is not being erected appears to annoy many people who are habitués of the park. The good old pump that does service with a rusty tin cup would do for a small country village, but the need of a more modern water place for man and beast is daily becoming more evident. Complaints are being filed every day, but thus far no steps have been taken to make amends for the delay. The Court House park is in excellent condition this summer and when the park committee makes the purchase of a dozen more seats it will be a favorite spot these hot noon hours, when it is well filled with working people who eat their lunch there.

The Brethren

By RIDER HAGGARD,
Author of "She," "King Solomon's Mines," Etc.

COPYRIGHT, 1903-1904, BY RIDER HAGGARD

CHAPTER XV.

THEN came the weariest time of waiting the brethren had ever known, or were to know, although at first they did not feel it so long and heavy. Water trickled from the walls of this cave, and Wulf, who was parched with thirst, gathered it in his hands and drank till he was satisfied. Then he let it run upon his head to cool his aching, and Godwin bathed each of his brother's hurts and bruises as could be done at. Then, lest he should grow stiff, who was sorely bruised beneath his mail, they began to walk up and down the cave.

The time crept on; the moon sank toward the mountains.

"What if they do not come?" asked Wulf.

"Let us wait to think of it till dawn," answered Godwin.

"How can they come, the door being barred?" asked Wulf.

"How did Masouda come and go?" answered Godwin. "Oh, question me no more; it is in the hand of God."

"Look," said Wulf in a whisper. "Who stand yonder at the end of the cave—there by the dead men?"

"Their spirits, perchance," answered Godwin, drawing his sword and leaning forward. They be looked, and, true enough, there stood two figures faintly outlined in the gloom. They glided toward them, and now the level moonlight shone upon their white robes.

"I cannot see them," said a voice.

"Oh, those dead soldiers—what do they portend?"

"At least rounder stand their horses," answered another voice.

Now the brethren guessed the truth and, like men in a dream, stepped forward from the shadow of the wall.

"Rosamund!" they said.

"Oh, Godwin! Oh, Wulf!" she cried in answer. "Oh, Jesu! I thank thee. I thank thee—these and this brave woman!" and, casting her arms about Masouda, she kissed her on the face.

Masouda pushed her back and said in a voice that was almost harsh:

"It is not fitting, princess, that your pure lips should touch the cheek of a woman of the assassins."

But Rosamund would not be repulsed.

"It is most fitting," she sobbed, "that I should give you thanks."

Then Masouda kissed her back and, thrusting her away into the arms of Wulf, said roughly:

"So, pilgrims Peter and John, your patron saints, have brought you through so far, and John, you fight right well. Nay, do not stop for our story if you wish us to live to tell it. What! You have the soldiers' horses with your own? Well done! I did not credit you with so much wit. Now, Sir Wulf, can you walk? Yes; so much the better. It will save you a rough ride, for this place is steep, though not so steep as one you know of. Now set the princess upon Plume, for no cat is surer footed than that horse. I, who know the path, will lead it. John, take you the other two. Peter, do you follow last of all with Smoke, and if they hang back prick them with your sword."

A minute more and they were scrambling down a mountain ridge so steep that it seemed as though they must fall and be dashed to pieces at the bottom. Yet they fell not, for, made as it had been to meet such hours of need, this road was safer than it appeared, with ridges cut in the rock at the worst places.

Down they went and down till at length, panting, but safe, they stood at the bottom of the darkness gulf where only the starlight shone, for here the rays of the low moon could not reach.

For a mile or more Masouda led them along the rocky bottom of the gulf, where because of the stones they could only travel at a foot pace, till they came to a deep cleft on the left hand, up which they began to ride. They stumbled on till they reached a little glade where water ran and grass grew.

"Halt," said Masouda. "Here we must wait till dawn, for in this darkness the horses cannot keep their footing on the stones. Moreover, all about us lie precipices, over one of which we might fall. To go forward would be madness. Sit down and rest awhile and let the horses drink a little and eat a mouthful of grass, holding their reins in our hands, for we and they may need all our strength before tomorrow's sun is set. Sir Wulf, say, are you much hurt?"

"But very little," he answered in a cheerful voice; "a few bruises beneath my mail—that is all, for Lozelle's sword was heavy. Tell us, I pray you, what happened after we rode away from the castle bridge."

"This, knights: The princess here, being overcome, was escorted by the slaves back to her chambers, but Sinn bade me stay with him awhile that he might speak to you through me. Do you know what was in his mind? To have you killed at once, both of you, whom Lozelle had told him were this lady's lovers and not her brothers. Only he feared that there might be trouble with the people, who were pleased with the lighting, so he held his hand. Then he bade you to the supper, whence you would not have returned, but when Sir Wulf said that he was hurt I whispered to him that what he wished to do could best be done on the morrow at the wedding feast when he was in his own halls, surrounded by his guards."

"Aye," he answered, "these brethren shall fight with them, until they are driven into the gulf. It will be a goodly sight for me and my queen to see. So he suffered you to go, and I left him alone. Before I went he spoke to me, bidding me bring the princess to him privately within two hours after we had supped, as he wished to speak to her alone about the ceremony of her marriage on the morrow and to make her gifts. I answered aloud that his commands should be obeyed and hurried to the guest castle. There I found your lady recovered from her faintness, but mad with fear, and forced her to eat and drink."

"The rest is short. Before the two hours were gone a messenger came, saying that the Al-Jel-bal bade me do what he had commanded."

"Return," I answered; "the princess adorns herself. We follow presently alone, as it is commanded."

"Then I threw this cloak about her and bade her be brave, and, if we failed, to choose whether she would take Sinn or death for lord. Next, I took the ring you had, the signet of the dead Al-Jel-bal. We came to the guards, and to them I showed the ring. They bowed also, but when they saw that we turned down the passage to the left and not to the right, as we should have done to come to the doors of the inner palace, they would have stopped us."

"Acknowledge the signet," I answered. "Dogs, what is it to you, which road the signet takes? Then they also let us pass."

"Now, following the passage, we were out of the guest house and in the gardens, and I led her to what is called the prison tower, whence runs the secret way. Here were more guards, whom I bade open in the name of Sinn. They said: 'We obey not. This place is shut save to the signet itself.'"

"Behold it!" I answered. "It is the signet that he must have sent, sure enough," the captain said, "to disobey which is death!"

"So they opened, though doubtfully, and we entered, and I bared the door behind us. They be short, through the darkness of the tower basement, guiding ourselves by the wall, we crept to the entrance of that way of which I know the secret. Aye, and along all its length and through the rock door of escape at the end of which I set so that none can turn it save skilled rascals with their tools, and into the cave where we found you. It was no great matter, having the signet, although without the signet it had not been possible tonight, when every gate is guarded."

Seated there on the grass in the darkness Godwin told them of their mad ride and of the slaying of the guards, while Rosamund raised her hands and thanked heaven for its merces and that they were without those accursed walls."

"You may be within them again before sunset," said Masouda grimly.

"Yes," answered Wulf, "but not alive. Now, what plan have you? To ride for the coast town?"

"No," replied Masouda, "at least not straight, since to do so we must pass through the country of the assassins, who by this day's light will be warned to watch for us. We must ride through the desert-mountain lands to Emsa, many miles away, and cross the Orontes there, then down into Baalbec and so back to Beirut."

"Emsa?" said Godwin. "Why, Saladin holds that place, and of Baalbec the Lady Rosamund is princess."

"Which is best?" asked Masouda. "That she should fall into the hands of Saladin or back into those of the master of the assassins? Choose which you wish."

"I choose Saladin," broke in Rosamund, "for at least he is my uncle and will do me no wrong."

Now at length the summer day began to break, and so soon as the dawn was gray, having drunk their fill and, as they had nothing else, eaten some water-cress that grew in the stream, they tightened their saddle girths and started. Scarcely had they gone a hundred yards when from the gulf misty mists that were hidden in gray mists they heard the sound of horses' hoofs and men's voices.

"Push on," said Masouda. "Al-Jel-bal is on our tracks."

Upward they climbed through the gathering light till at length they reached a great table land that ran to the foot of some mountains a dozen miles or more away. Among those mountains stood two peaks, set close together. To these Masouda pointed, saying that their road ran between them and that beyond lay the valley of the Orontes. While she spoke for be-

hind them they heard the sound of men shouting, although they could see nothing because of the dense mist.

"Push on," said Masouda. "There is no time to spare." And they went forward, but only at a hand gallop, for the ground was still rough and the light uncertain.

When they had covered some six miles of the distance between them and the mountains pass the sun rose suddenly and, sucked up the mist. This was what they saw: Before them lay a flat, sandy plain; behind, the strong ground that they had traversed, and, riding over it, two miles from them, some twenty men of the assassins.

"They cannot catch us," said Wulf, but Masouda pointed to the right, where the mist still hung, and said: "Yonder I see spears."

Presently it thinned, and there, a league away, they saw a great body of mounted soldiers. Perhaps there were 400.

"Look," she said. "They have come round during the night, as I feared they would. Now we must cross the path before them or be taken."

Half a mile farther on a shout from the great body of men to their right, which was answered by another shout from those behind, told them that they were seen.

"On!" said Masouda. "The race will be close." So they began to gallop their best.

Two miles were done, but, although that behind was far off, the great cloud of dust to their right grew ever nearer till it seemed as though it must reach the mouth of the mountain pass before them. Then Godwin spoke:

"Wulf and Rosamund, ride on. Your horses are swift and can outpace them. At the crest of the mountain pass wait awhile to breathe the beasts and see if we come. If not, ride on again, and God be with you."

"Aye," said Masouda, "ride and head for the Emsa bridge—it can be seen from far—and there yield yourselves to the officers of Saladin."

They hung back, but in a stern voice Godwin repeated:

"Ride, I command you both."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a running, sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; none cases out of ten are caused by colds. When the mucous lining of the Eustachian tube is inflamed, it swells and blocks the passage of air from the outside of the ear to the middle ear. We will give one hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

A GOOD REASON.

Janesville People Can Tell You Why It Is So.

Doan's Kidney Pills cure the cause of disease, and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache and distressing kidney and urinary complaints. Janesville people testify to permanent cures.

Thomas Burgess, millwright of 15 Park Ave., Janesville, Wis., makes the following statement concerning Doan's Kidney Pills:

"I had always had a pain in my back for nearly ten years. A dull ache and done-out feeling often completely laid me up. It was very bad at night, and I have awakened from a sound sleep feeling as if a ton weight was lying on my back, and for a few moments I would be afraid to move for fear of sharp shooting pains which usually struck me at such times and went to the very quick. I had to use my hands and arms to turn over in bed; my back was weak. The urine was in very bad shape also, and gave me trouble at night as I had to get up a number of times to pass it. There was considerable sediment and the secretions were discolored. I had used a number of remedies at different times without apparent benefit. I at last decided to try Doan's Kidney Pills and got a box at the Peoples' Drug company, and soon after I began to use them I began to improve. In a few days the backache left me and as I continued the treatment the irregularities of the secretions were corrected and I have enjoyed better health ever since, having had no return of any form of kidney trouble."

RAILROADS AND SHIPPERS PAID FOR HIS SERVICES.

REBATES SENT BY EXPRESS

Cash Came to Merchants from Unknown Source in Return for Shipments Made Through Broker in New York.

Kansas City, Mo., May 24.—Testimony of unusual interest was brought out Wednesday afternoon in the United States court in the trial of George H. Crosby, traffic manager of the Burlington railway, George L. Thomas, of New York, a freight broker, and L. B. Taggart, his clerk, on a charge of conspiracy in rebating railroad rates.

The principal witnesses Wednesday were George A. Barton, of Barton Bros. Shoe company; George W. Taylor, of Robert Keith Furniture & Carpet company; E. W. Freyschlag, of the Freyschlag Mercantile company, all of this city, and Walter B. Keby, of New York, clerk in 1904 and 1905 for Thomas.

The testimony shows that the firms mentioned received large sums of money from mysterious sources after freight bills had been paid; some times in express packages, always from New York, but none knew who sent it. On the stand Freyschlag frankly referred to an agreement with Thomas whereby his firm was to receive 25 per cent. rebates on freight bills and told how the money was deposited in New York to the firm's credit by one "Jackson," a person whom he did not know. He could not remember whether he or Thomas had suggested the use of the name. At first he said that the idea was his, but on cross-examination he changed and said that he could not remember. He admitted that the name was used to hide "this business," a term all the witnesses employed.

Received Rebates for Years.

"Thomas was to look after our freight business and take care of our claims," said Mr. Freyschlag in his testimony, "and we were to receive rebates on all freight destined to points west of the Mississippi river. This was 25 per cent."

"Did you receive those rebates?" was asked.

"Yes. The total amount in three years of our contracts with Thomas was about \$7,500. We did not receive the rebates for 1908 shipments. We got about \$1,700 in 1905 in rebates for goods shipped in 1904. The money came in currency mostly. Some one, Thomas Taggart or W. B. Keby, Thomas' clerk, sent it, I suppose; I don't know."

Freyschlag said that the rebates for 1905 shipments were still due. He did not know who owed it to him. Taggart had told him, he said, that the rebates had not been paid up. Freyschlag said his freight bills amounted to about \$30,000 a year.

The cross-examination by the government of Mr. Freyschlag was somewhat startling. Counsel kept at the witness until he made him admit that he had agreed to use the name "Jackson" because he "thought there might be something criminal in the business."

"All the shippers here are in the same box with me," Freyschlag exclaimed, defiantly. "Instead of four years, this thing had been going on for 25 years—not at 25 per cent. rebates, but at 40 per cent."

Witness admitted he had sent his son to New York to see Thomas.

"Why?" attorneys for the government asked.

"Well," replied Mr. Freyschlag, "I had paid Thomas \$500 salary for the year of 1905 and I had received nothing. I thought if the railroads had paid Thomas, I wanted it."

Sent Envelopes by Express.

W. B. Keby, former clerk for Thomas, said that he had sent express packages of "envelopes" to firms in Kansas City. He did not know what they contained. Once he brought money to Kansas City himself for Robert Keith Furniture company, but didn't know why.

George Barton, of Barton Bros. Shoe company told of contracts with Thomas as to route freight and "to attend to claims." His firm, he said, never received money from Thomas, but did receive some from W. B. Keby, Thomas' clerk, and through the mails and by express. The witness said that after paying his freight bills in Kansas City he sent them to Thomas in New York city. The firm paid Thomas 2 1/2 cents a hundred pounds commission on all of its shipments, about \$1,500 in two years, in addition to \$500 yearly salary.

George W. Taylor, of Robert Keith Furniture & Carpet company, told of conditions and transactions between his firm and Thomas. He said that George H. Crosby had admitted to him that the Burlington paid Thomas a salary because "of the tonnage he controlled."

F. P. Kirkendall, a wholesale shoe dealer of Omaha, paid Thomas \$500 a year to "look after his freight shipments." He said that he had received money two or three times from Thomas but had kept no record of it.

Edward P. Lewis, a St. Louis dry goods merchant, stated that he had a routing contract with Thomas in 1902 and 1903.

BOYS who can PLAY the GAME

WE WANT boys who can "play the game," boys who when they play ball hit it hard and get to "first," the boys who want to succeed and are bound to succeed. We need them and we help them. We pay them good money. They can buy cameras, bicycles, horses—one boy has even bought a house and lot. It's "easy money" SELLING

THE SATURDAY EVENING POST

And there's more in it than the money, for we teach boys methods of success—we teach them how to work out their problems, teach them salesmanship, which is one of the best paid abilities in the business world. It's worth something to a boy to be connected with a large, successful house.

And we take good care of our boys. There are extra cash prizes, camping trips, and other special offers. A boy can start without his costing him a cent, for we furnish his first supply of magazines free, and the money from these will buy another supply, and so on.

We want to send free an interesting booklet about our boys. Get into the game NOW by writing for it.

HELPED BOYCOTT AMERICAN GOODS

CHINESE OFFICIALS ENCOURAGED BAN BY CIRCULARS.

FOREIGN OFFICE GAVE AID

Proclamation by Consul General at San Francisco Indicates Desire to Gain Point Through Commercial Pinching.

Washington, May 24.—Secretary McCall, complying with a resolution of the house, has sent to that body a long report from Commissioner General Sargent of the immigration bureau giving the history of the enforcement of the Chinese exclusion law.

The last chapter of the report deals with the Chinese boycott of American goods and reproduces official proclamations of Chinese officials which, despite assertions to the contrary, show that the Chinese government is at least not discouraging the boycott.

In July of last year an official proclamation was made by the Chinese consul general at San Francisco to Chinese in this country. The official translation of it contains this language:

"The Chinese exclusion act of the United States is what Chinese merchants at all ports desire to retaliate against by means of a commercial boycott on American goods."

Encouraged the Boycott. "The said boycott this department (Chinese foreign office) has never at any time prohibited or obstructed."

The report states that at the time this proclamation was issued newspaper reports had come from Minister Rockhill in China "that the Chinese government is vigorously opposing the threatened boycott of American goods."

Another proclamation is quoted in the report, that of Sir Chen Tung Lian Chang, minister to the United States, also issued in the Chinese language at San Francisco, and advising all Chinese discriminated against in any way to file their claims with him for presentation to the state department of this country.

The minister took the ground that since the abrogation of the exclusion treaty, December 8, 1904, the United States had no right according to the law of nations to exclude Chinese citizens by local laws.

The report quotes an article in the North American Review of March 19 by Wong Kai Kah, which language, the report says, has since become significant.

How Effectiveness is Obtained. "In no other country is the power of boycott as strong as it is in China. Every business, profession has its guild or association, whose laws are almost paramount to the laws of the country, and often merchants accomplish the repeal of an onerous law or tax or the removal of an unjust official by closing their places of business and letting them remain closed until the remedy asked for is granted."

Setting out the conflicting duties of the consular officers in encouraging commercial relations and scrutinizing prospective immigrants, the report adds:

"Whether from the above cause or from dishonesty on the part of consular officers, or both, the fact is that hundreds of certificates have been issued by the Chinese officials and vided by American consular officers, for Chinese persons so palpably coolies that it is difficult to conceive that anyone even glancing at them, casually, should have taken them for members of any other class."

During the past three years, the report says, 1,245 section six certificates were issued and vided in China. Of these, 277 were to persons not entitled to admission to the United States. The report adds that the Chinese now "have been compelled to resort to other subterfuges to effect their unlawful practices."

RAILROAD EMPLOYEES OBJECT TO THE LAW

Anti-Pass Law Will Work Hardships Upon the Employes, Not the Roads.

"If the house of representatives concurs in the anti-pass amendment which the senate approved, it will be a severe blow and work an injury to many a poor railroad man today."

"As things have stood a brotherhood engineer could travel all over the country in search of work. Suppose the Central Pacific let out a number of engineers and one of them wanted to go to the Boston and Maine road, where he was sure of getting a job; under the old way he could make the trip for nothing and when he had settled in some New England town he could have brought his family on at no expense save meals. The new law will stop all this and it is no wonder that both the Brotherhood of Locomotive Engineers and the Order of Railway Conductors protested against it. The railroads will not mind the abandoning of passes to city, county and state officials, but that their own employes can not ride on other lines than the one they work for will work a decided hardship in many cases."

Personally, I shall be tickled that state senators and representatives will get no more passes. Then they can no longer commute their state mileage and make money out of the deal. Moreover I want to say that in almost every case where a legislator has been given a pass, it has been in self-defense by the railroad; not to get legislation in benefit of the company, but simply because the corporation is well nigh helpless. I remember in my state, Illinois, when the Alton issued its famous order against the use of passes out of Springfield except on certain trains because the other trains were so filled with dead-ends to and from Chicago that there was hardly any room for paying passengers. The Alton backed down in a hurry. There was one bill prepared which would have made it put in gates at every country crossing and another which would almost have forced the road to operate on a loop the loop principle.

"This is only one case of many. I could cite of holdup games practised at state capitols and largely by the very men who are loudest in this denunciation of the railroad as a breeder of corruption."

"The anti-pass law will be a good thing for the railroad as a corporation, but it will be a hardship upon many of the employes of the road."

REGENTS HAVE TO DIG UP FOR TRACK TEAM

Deficit in Track Team Expenses Made up by State.

(SPECIAL TO THE GAZETTE.)

Madison, Wis., May 24.—Financial aid of the University of Wisconsin track athletic team has been given by the board of regents in the form of an appropriation of \$450 to defray the expenses of the athletes for the remainder of the season, so that no deficit will remain at the close of the school year and the faculty management of athletics be thereby vindicated. Heretofore the track team has lost some \$500 to \$1,000 a year, which has been made up by receipts from championship football games. This year there will be no big football contests and therefore the regents had to shell out or the failure of the faculty management would be established.

Wisconsin will be represented in the intercollegiate tennis tournament at Chicago next week; although the team here is not strong and no expectation is entertained that the badgers will make an enviable showing.

The Wisconsin team will be composed of W. A. Rehm, R. L. Loesch, C. W. Green and Robert Herdeggen, practically last year's team. The Chicago team of 1905 was won by Chicago, Michigan, Iowa, Wisconsin, Northwestern and other universities.

will compete in the 1906 tournament, which begins Monday in Chicago. Athletic Director A. D. Angell is making an effort to send a badger team to

compete in the intercollegiate golf meet in Chicago next Tuesday and Wednesday. Athletic interest here centers in the annual Wisconsin interscholastic meet here Saturday. A long entry list from schools of the state is complete and good contests are assured, but few records are expected to fall.

HANS JORGENSEN IS SUMMONED BEYOND

Died This Morning—Little Landswork Girl Follows Mother to the Grave.

Hans Jorgensen, a resident of Janesville for many years and known to the greater number of people in the city, passed away at eleven o'clock this morning. Early this spring he suffered an injury to one limb and since then has been falling rapidly, suffering with blood poisoning and erysipelas. He was about forty-five years of age and leaves a wife and two daughters at Madison. One daughter is Mrs. Frank Stark. Notice of the funeral will be given later.

James Enright. The remains of the late James Enright, who passed away in New Orleans, La., are expected here this evening and the funeral will be held from St. Mary's church tomorrow morning at nine o'clock. Interment will be in Mount Olivet.

Thomas Mackin, Sr. The last sad rites over the remains of the late Thomas Mackin, Sr., will be held tomorrow morning at St. Patrick's church at 9:15 o'clock and burial will be in Mount Olivet cemetery.

Lulu Landswork. Lulu Landswork, aged six, died at the home of her father, Nels Landswork, in the town of Rock at eleven o'clock this morning. Her mother died less than ten days ago and a still younger sister is also very ill. Pneumonia is the disease.

Mrs. Anna Louise Axtell. (SPECIAL TO THE GAZETTE.)

Evansville, May 24.—Mrs. Anna Louise Axtell died suddenly at her home on West Main street this morning of heart failure, aged about 55 years. Her maiden name was Church. She was born in Massachusetts and graduated from Mt. Holyoke college. She married Benjamin F. Axtell and moved to Brooklyn, Wis., where her husband owned a store and was postmaster. Mr. Axtell died about thirty years ago, leaving Mrs. Axtell with three small children. She continued to run the store and act as postmistress until ten years ago, when she moved to Evansville. She leaves three children: a son, Verne Axtell; Miss Hattie Axtell and Miss Annie Green.

BOOK OF FORMS OPTIONAL

Presbyterians Compromise by Agreeing to Publication, But Denying Official Recognition.

Des Moines, Ia., May 24.—The famous controversy and debate over the proposed Presbyterian book of forms, ended in the general assembly late Wednesday afternoon in a compromise in which all words that might indicate that the book is authorized were stricken from the resolution and the text and title pages of the book itself and in which the resolution of opposition was also incorporated, declaring specifically that the assembly made no recommendations with reference to it.

With these limitations the report of Dr. Henry Van Dyke's committee was adopted and all bitterness between the factions avoided.

The book of forms will continue to be published, but nowhere on its pages will be found anything to indicate that it bears any authority from the Presbyterian general assembly, all such words and phrases having been stricken out. It will be published merely "for the purpose contemplated by the general assembly of 1905" and "for voluntary use."

The committee on Presbyterian brotherhood, new men's society of the Presbyterian church, announced that the first national convention of Presbyterian Men's societies will be held November 14, 15 and 19, at a place to be designated later.

NOTED PLAYWRIGHT DEAD.

Henrik Ibsen Dies at his Home in Norwegian Capital After Long Illness.

Christiania, May 24.—Henrik Ibsen, Norway's greatest poet and dramatist, died peacefully at 2:30 o'clock Wednesday afternoon. Ibsen was 73 years of age.

Although Ibsen's literary activity ceased some years ago, when an apoplectic seizure forced him to refrain from mental effort, he had continued to be a familiar figure in the life of Christiania and was frequently seen driving in the streets with a companion.

From time to time lately as fresh apoplectic attacks came upon him it became obvious, especially in view of his advanced years, that his death could not be far distant. Tuesday night another seizure left him completely unconscious, and his physician announced that he had only a few hours to live.

King Haakon, immediately upon receipt of the news of Ibsen's death, transmitted to the widow his own and Queen Maud's sympathy and condolences.

The storthing, and other public bodies are formally recording the national grief at the loss of this foremost figure in the literary life of the nation. It is understood that the funeral will be a state function.

Chairman Cullom has been authorized to report favorably an amendment to the diplomatic and consular appropriation bill authorizing the President to expend for consular buildings in China, Corea, and Japan \$1,000,000 of the Chinese indemnity fund.

Our great stock is so complete that one can find just the desired garment, whether vest, pants, union suit, corset cover, from the smallest to the extra large. Prices to fit every purse. 3c for Children's ribbed Vests, white and colors; a hundred dozen. 5c for Women's and Misses' ribbed Vests, all colors; over one thousand of them. They are great bargains. We show the best made underwear in Janesville at prices even lower than inferior garments are sold for. Save time looking around for what you want by coming direct to Headquarters. FOR MEN AND BOYS -Shirts, Drawers, Suits, from 25c to \$1.50. We recommend our fine Balbriggan Suits for particular men; price \$1.50.

We have taken the Janesville Agency for

La Grecque Tailored Underwear

The Coolest, Best Fitting, Most Comfortable Underwear ever worn

Combination garments exquisitely manufactured, fit and hang like a well tailored gown without disfiguring fullness at waist line or hips. Edgings and insertions of daintiest new laces. These garments made in soft clinging Nainsook, linen, Cambric or Silk, appeal to women of taste. It is not too much to claim that one suit of LA GRECQUE TAILORED UNDERWEAR will outwear any two suits of ordinary underwear.

Drawer and Corset Cover Combination

Perfect Fitting Corset Cover, ample Drawer and Skirt, all in one garment. No drawing, binding, gathers or wrinkles. Adjustable to fit and hang smoothly on the thinnest or stoutest figure alike. No mending, as these garments are so well made with double-stitched, flat-felled seams that they will outwear anything ever before made in underwear. Ample in shape and falling in graceful folds, this combination is practically all the necessary underwear in one garment, making the coolest ever worn. Dainty, yet serviceable, and will please the most fastidious. \$2.00 up.

Skirt and Corset Cover Combination

Fits smoothly over the entire figure without bands or gathers. Does away with adjusting numerous garments. Neat and dainty. Very durable—the seams are double-stitched and flat-felled. All insertion and lace put in so well that mending will be unnecessary. Scalloped around the bottom for perfect freedom in walking and sitting, and so shaped they they will not work up. A perfect fit around hips and waist, materially lessens out-of-dress measurements, and accentuates the beauty of the waist line. Their extraordinary durability is such that they will outwear two or three sets of ordinarily-made garments. \$2.00 up.

DRAWER—A garment so ample, so perfect in cut, that it will fit the stoutest figure without superfluous fullness at hips and waist, and still remain closed in the back, whether sitting or standing. A fitted yoke allows the garment to hang below the waist line, taking away the fullness of the gathering strings in the ordinary drawers. Scalloped so hose supporters can be worn outside and not interfere with the garment hanging smoothly. \$1.00 up.

"La Grecque" Combined Drawers and Corset Cover

This one garment takes the place of the usual short skirt, drawers and corset cover without their disfiguring bands or fullness at waist line.

Three garments in one. Less laundry—more comfort. Cool, chic and dainty. Perfect freedom in any position. Cannot ride up or drag apart in any position.

Will outwear two ordinary garments, retaining its shape through repeated laundering.

We also show La Grecque Bustles 25c, 50c; Jabots at 65c Brassiers, a boned corset cover \$1

"La Grecque" Combined Skirt and Corset Cover

Fits like a princess gown, without superfluous fullness at waist line.

Closed in back it cannot pull apart. Like all "La Grecque" garments the new design prevents "working up" or any restriction to absolute freedom of motion in any position.

Graceful and artistic. Exquisitely tailored and has soft flat-felled seams.

"La Grecque" Combination Garments are all made adjustable to the figure.

FRED M. ADAMS.

Milton Junction, Wis., Jan. 23, 1901.

Dear Sir:—Some years ago my hair commenced to come out and in a short time I lost all of it. I was obliged to wear a wig. My druggist here advised me to use Danderine. I purchased a bottle and used it for some time and after using it one week my hair stopped falling out. I am now in my fourth bottle and my hair is the same as it was before. I cannot speak too highly of your Danderine, which has cured me. I remain, yours very respectfully, FRED M. ADAMS.
